

Introducing:

Filtration Services Group

FSG provides optimum filtration products and services for all areas of filtration.

Air Filtration

Compressed Air

Dust Collection

Liquid

Hydraulic

Rolled Media

New Construction

FSG staff are experts in filters and filtration equipment with vast experience in all industries including:

Automotive

Petrochemical

Food and Beverage

Pharmaceutical

Paint and Coatings

Dirt-in-Paint Capabilities

Dirt-in-Paint Identification with over 25 years of experience, throughout the Paint Shop with Microscopic Capabilities

Compressed Air Technologies:

- Distributor of Replacement Parts for Compressed Air Drying and Purification Systems
- Parts include: 4-way Valves, Check Valves, Timers, Heaters, Solenoids, Dew Point Sensors, Temperature Controllers, Filters Elements, Desiccant, Purge Valves, Dryer Mufflers, Thermocouples, Air Cylinders, and more.
- Recharge Catalytic Converters for DLB, MBCI, Deltech, Flair, Hankison, Pioneer, Pneumatic Products Corporation and Zeks, Breathing Air Systems.

Service and Testing:

- Factory Trained Service Technicians and In-Plant Preventative Maintenance Programs: Performance Testing of Compressed Air and gas streams from Powerhouse to the most sensitive applications.
- In-Plant Process Compressed Air and Gas Quality Audits: NIST Traceable, Flow, Pressure, Temperature, Hydrocarbons, Dew Point, and Particulates.
- Contaminant identification through Desiccant, Charcoal Adsorbents, and Condensate Sampling with GC / Mass Spectrometry Analysis.
- OSHA, NIOSH and CSA compliance audits. On site Breathing Air Quality testing for CO, CO2, O2, Oil Mist and Particulates
